

## II COLORECTAL LAPAROSCOPIC COURSE ON CADAVERS

### “CONSERVATION THIEL”

**Description of the course:** The aim is to deepen the laparoscopic surgical technique in colorectal and pelvis using:

**Theoretical part:** “How Can I do it and tricks”: Theoretical review with images and videos of the surgical maneuvers.

**Practical part:** Realization of the dissection, resection and anastomosis in cadaver with preservative “Thiel” (allowing to maintain the color, texture, plasticity and flexibility of the fresh cadaver). There will be 2 students and one professor per cadaver.

**Live surgeries:** Assistance to Operation Room (OR) of Elche Hospital where they will be made laparoscopic colon procedures.

**Target audience:** Surgeons with an interest in the laparoscopy for colon and rectum.

**Registration Information:** 20 students will be admitted. Contact us on: **Technical**

**Secretariat:** D<sup>a</sup> Margarita Castro. Department of Anatomy Tf: 0034-965919427. Email: [histologiayanatomia@umh.es](mailto:histologiayanatomia@umh.es). or Dr. Arroyo: Course coordinator: arroyocir@hotmail.com.

**Registration fee:** 1.200€. IBAN: ES56 2100 8624 5502 0003 9551.

#### Includes:
