

# 10<sup>th</sup> ISLCRS – 6<sup>th</sup> APETNA 2015 Congress, SINGAPORE

(incorporating SGH Colorectal Scientific Week  
and SCRS Annual Scientific Meeting)

**ISLCRS:**  
2 – 6 November 2015

**APETNA:**  
31 October – 2 November 2015

The Academia, SGH Campus, Singapore

Welcome to the 2015 Congress of the International Society of Laparoscopic Colorectal Surgery (ISLCRS). Singapore plays host to this year's 10<sup>th</sup> edition and the congress will be held at the Academia, Singapore General Hospital campus, in conjunction with the Asia-Pacific Enterostomal Therapy Nurses Association (APETNA) Congress.

Our theme "**Navigating New Advances**" highlights the richness of surgical options offered through new techniques and advances in technology. Our distinguished faculty includes:

#### Key Features of the congress:

- Cadaveric Laparoscopic Workshop
- Transanal Endoscopic Operation (TEO) Workshop
- Live Robotic Colorectal Surgery
- Pelvic Floor Evaluation Workshop including Dynamic Pelvic Ultrasound
- New Technology & Innovations
- ESD/EMR/POEM Workshop

#### Call for Papers

Abstract Submission Deadline:  
**15 July 2015**

#### Registration

Early Bird registration ends on  
**31 Aug 2015**

#### Professor R J Heald

*Surgical Director, Pelican Cancer Foundation, Basingstoke (UK)*

Professor Heald revolutionised modern colorectal surgery with the development of the Total Mesorectal Excision (TME) technique, which has now become the cornerstone for rectal cancer surgery worldwide. His passion for his work has brought him to all corners of the world to teach and train surgeons in colorectal surgery.

#### Dr Andrew R L Stevenson

*Director of Colorectal Surgery at Royal Brisbane and Women's Hospital (Australia)*

Professor Stevenson is an eminent leader in the field of laparoscopic colorectal surgery, particularly with his work in colorectal cancer and functional disorders. He has been Principle Investigator in several large multi-centre trials and continues to be involved in research, education and training.
