Dear Colleagues,

The Scientific Committee and the Members of the Board of the MSCP and the SICCR welcome you to Rome! Thank you for your interest in the 6th Biennial Meeting of the MSCP in conjunction with the 2nd Lazio Meeting of the SICCR.

The Scientific Programs of both meetings promise to be extremely interesting and I am sure that much will be gained from each of these.

Several contributions were received and reviewed. The Scientific Committee invites you to read these. These will be exhibited as Posters in the Main Meeting Room.

The Italian Society of Colorectal Surgery, which recently organized the SICCR Science Center, represents the Italian coloproctologist and has more than 600 members and 70 Coloproctology Units, whose standard is periodically evaluated. Their Annual Report, more than 40,000 patients, is published in *Techniques in Coloproctology*, its official journal. The website is: www.siccr.org

The Mediterranean Society of Coloproctology - www.info.mscp.org - was founded more than ten years ago, aimed at promoting our specialty in Mediterranean countries, three continents with different standards and expectations. Here in Rome, for the first time, we will have an attendance from the Maghreb countries, and of course from western Europe, Balkans, Greece, Turkey, Israel and Egypt.

I warmly invite the MSCP members to take part in the election of the new Governing Council on Friday, February 1st at 7:00 pm.

Thank you for coming!

Mario Pescatori, Honorary President
