

## National Research Center of Surgery named after academician B.V. Petrovsky

## Second International Conference «Russian School of Colorectal Surgery»

20 November 2009  
Moscow

### Sergey Dzemeshkevich, MD, PhD

Director of the National Research Center of Surgery  
named after academician B.V. Petrovsky

The First International Conference «Russian School of Colorectal Surgery» in March 2009 was a successful meeting. It brought more than 200 surgeons and oncologists from Russia, Ukraine, Belarus, and other CIS countries, as well as surgeons from Baltic states, Serbia and Israel. The innovative form of the conference allows attendees to obtain up-to-date knowledge from world renowned specialists. We would expect that this educational course would improve Russian national outcomes of colorectal disease treatment by implementing unified techniques and standards.

### Petr Tsarkov, MD, PhD

Head of Colorectal Department of the National  
Research Center of Surgery named after academi-  
cian B.V. Petrovsky

Dear Colleagues,

We invite you to participate in the Second International Conference «Russian School of Colorectal Surgery». The topic of this meeting is treatment of low rectal cancer. You will be able to participate in live surgery sessions of abdomino-perineal resection by Prof. Torbjon Holm from Sweden. He has pioneered the cylindrical approach of rectal dissection and showed it's oncological safety. The course will include lectures about surgical treatment of low rectal cancer and a novel electronic abstract presentation session.

We look forward to welcoming you.

## Date and Location

November 20th, 2009  
National Research Center of Surgery (named after academician B.V. Petrovsky)  
2, Abrikosovskiy pereulok  
Moscow 119991

## Organizing Committee

## Registration

\*Early registration deadline: **November 1, 2009**  
Register online at <http://en.proctosite.ru>  
\*Onsite registration is available. Visit website for additional details.

## Language

The official language of the meeting is Russian (English-Russian, Russian-English simultaneous translation is available).

## Invited faculty

### Torbjorn Holm, MD, PhD

Consultant Surgeon  
Section of Coloproctology  
Department of Surgery  
Karolinska University Hospital

Associate Professor of Surgery, Consultant Surgeon in Section of Coloproctology, Dept. of Surgery of Karolinska University Hospital (Stockholm, Sweden). Guest professor

in colorectal surgery in Sundhedsvidenskaplige Fakultet, Aarhus University, Denmark. Honorary member German Society for Visceral Surgery, Swedish Medical Association, Swedish Society of Medicine, Swedish Surgical Society, Swedish Society of Colon and Rectal Surgeons, European Society of Surgical Oncology, European Society of Coloproctology, Stockholm Colorectal Cancer Study Group. Developed novel technique of cylindrical APR for lower rectal cancer and demonstrated its oncological efficacy.

- 07:30 Registration**  
Foyer of Cardiac Clinic Building
- 08:30 Welcome and Introduction**  
Sergey Dzemeshkevich, MD, PhD  
Director of the National Research Center of Surgery  
**Greeting from president of Russian Academy of Medical Sciences**  
Mikhail Davydov, MD, PhD  
3 floor, Conference Hall, Cardiac Clinic Building
- 08:35 Patient Case Presentation**  
**08:40 Live Surgery**  
Abdomino-perineal Resection  
*OR1 - Torbjorn Holm, MD, PhD*  
*OR2 - Yuriy Barsukov, MD, PhD*
- 14:00 Coffee Break and Exhibits**  
**Electronic Abstract Presentation**  
Winter Garden (Conference Hall) Cardiac Clinic Building, 3rd floor
- 15:00 Torbjorn Holm** "Anatomic Principles and Oncologic Results of Cylindrical Approach of APR"
- 15:30 Dmitry Sidorov** "Modern Approaches in Improvement of Low Rectal Cancer Treatment"
- 15:45 Petr Tsarkov** "Lateral Lymph Node Dissection in Low Rectal Cancer Surgery: Pros and Cons"
- 16:00 Coffee Break and Exhibits**  
Winter Garden and Foyer (Conference Hall)  
Cardiac Clinic Building, 3rd floor
- 16:30 Torbjorn Holm** "Outcomes of National Audit of Results of Surgical Treatment of Rectal Cancer"
- 17:00 Daniil Stroyakovskiy** "Neoadjuvant Chemotherapy in Advanced Colon Cancer"
- 17:20 Expert Round Table Discussion**  
**17:50 Awards Session Electronic Abstract Presentations**
- 18:00 Closing Remarks**  
**18:15 Dinner**

# Abstract Competition

The organizing committee invites you to participate in our scientific abstract competition.

**Topic:** Surgical Treatment of Rectal Cancer

## Abstract submission

\*online submission to conference website <http://en.proctosite.ru>

\*email submission to [info@proctosite.ru](mailto:info@proctosite.ru)

## Abstract requirements

Title, author(s) and affiliation(s).

Word limit - Abstracts will be limited to a maximum of 350 words, including Introduction/Background, Aim, Methods/Materials, Results, and Discussion.

Spelling and grammar are the authors' responsibility. Noncompliant abstracts will not be accepted.

## Abstract submission deadline: Sunday, 1 November 2009

The expert council will select 5 abstracts for competition. It would be held in innovative and novel form – **electronic presentations session.**

Authors of the selected abstracts will be responsible for creating the presentation for the electronic abstract session.

Conference participants will select three best abstracts, the authors will be awarded.

Prizes: 1st Place = 25 000 rubles, 2nd Place = 15 000 rubles, 3rd Place = 10 000 rubles

## Announcement

### Mark your calendar

We invite you participate in **Third International Conference "Russian School of Colorectal Surgery"**, that will be held on **15th March 2010** in Moscow. This event will be dedicated to surgical treatment of colon cancer, particularly right colon cancer. We invited prof. W. Hohenberger from Erlangen, Germany, to demonstrate the technique of Total mesocolic excision, that he has developed and introduced. Further information will be available at <http://en.proctosite.ru>

## Werner Hohenberger, MD

Professor  
Director of Surgical Clinic  
University Clinic, Erlangen  
Germany

President of the German Cancer Society.

Since 2004 has been a member of the Advisory Board of the Comprehensive Cancer Center (CCC) of the German Cancer Research Center and the University Hospital in Heidelberg and in 2006. He deals with the use and development of high-level visualization and surgical techniques, including minimally invasive surgery. He was the first European to introduce the principle of Total mesocolic excision for right-side colon cancer.
