WELCOME MESSAGE

It is a great pleasure and honour to invite you attending the 8th EFR – European Federation for coloRectal Cancer-Congress to be held from April 4th - 6th, 2013 at the Medical University of Vienna. Following the success of the previous conferences, the main objectives of this meeting will be progress and future developments in the treatment of colorectal cancer. The management of colorectal cancer requires a multidisciplinary approach with individualized treatment concepts due to stage and risk factors. The conference schedule will provide you with the latest data of multimodality treatment and the optimization of different treatment components. Abstract submitters will have the chance to present their works. The best three abstracts will be selected and honoured by the Ingeborg Hörhager Prize.

Vienna, also described as Europe's cultural capital, is a metropolis with unique charm, vibrancy and flair. As a clean and a safe city, it boasts outstanding infrastructure and has all the inspiration that you could wish for in order to discover this wonderful part of Europe, especially during the spring time.

We look forward to welcoming you to an inspiring congress in Vienna in 2013.

Béla Teleky, MD, FRCS
President of the EFR

Welcome Message

G. Poston: What are the limits in resection of colorectal liver metastases? 5 min

Th. Grünberger: Essential surgical treatment decisions for CLM 15 min

N. Kokudo: Surgical strategies for multiple colorectal liver mets: experience of ICG fluorescence diagnosis 15 min

M. Ryska: Surgery for liver metastases of colorectal carcinoma in Czech Republic: current national survey 15 min

Discussion 15 min

16:30 – 17:30 MERCK Symposium:

Conversion Therapy of Liver Metastases in the Light of ESMO-Guidelines

17:45

Transfer to Stift Klosterneuburg Guided Tour – Networking Dinner

SATURDAY, APRIL 6TH

08:00 – 09:00 Breakfast Symposium STRYKER

09:00 – 10:30 Session VII

Moderation: **Irene Kührer**

Chair: **I. Pravosudov , R. Pötter**

J. Korcek: Update D2 EUS in rectal cancer
Preoperative staging, restaging after RTX 10 min

V. Valentini: How to tailor rectal cancer treatment
by available prediction model 15 min

H. Becker: Preoperative versus postoperative
chemoradiotherapy for locally advanced rectal
cancer: survival benefit after a median follow-up of
11 years. 15 min

Z. Mammadli: Neoadjuvant chemoradiotherapy
with different Fluoropyrimidine 10 min

N. Wasserberg: The interval between neoadjuvant
treatment and surgery for rectal cancer 15 min

M. Omejc: Pathologic complete response after
neoadjuvant chemoradiation in locally advanced
rectal cancer 15 min

Discussion 10 min

10:30 – 11:00 **Coffee break**

Scientific Programme

11:00 – 12:30 Session VIII

Moderation: **Gabriele Kornek**Chair: **Z. Saladzinskas, T. Skricka**

Daniela Kandioler: To treat or not to treat: MARK53 predicts outcome of cancer patients 15 min

W. Scheithauer: Biologicals in colorectal cancer 15 min

Discussion 15 min

12:30 – 13:00 Hörhager Prize

13:00

Irene Kühner: Presentation of 3 best posters

B. Teleky: Closing remarks

SPEAKER

The congress will provide an extraordinary opportunity for all participants to meet the leading experts in their fields and network with other colleagues. A comprehensive list of international speakers will be posted on our website in due course. Speakers list accepted (October 2012).

- Heinz Becker
- Gina Brown
- Adam Dziki
- Bill Heald
- Jiri Hoch
- Andre D'Hoore
- Zoran Krivokapic
- John Marshall
- Miroslav Milicevic
- Jeffrey Milsom
- Iris Nagtegaal
- John Nicholls
- Mirko Omejc
- Lars Pahlman
- Phil Paty
- Irinel Popescu
- Giovanni Romano
- Evgeny Rybakov
- Yuri Shelygin
- Francis Seow-Choen
- Paul Sugarbaker
- Vincenzo Valentini
- Cornelius van de Velde
- Nir Wasserberg

We also expect numerous speakers from across the world also coming from United States and Asia, giving their specific impact.

**For further information and registration visit our homepage:

TOPICS AND GOALS

TOPICS:

- Progress in Radiology – New Era of Imaging
- Pathology Implications for Diagnosis, Prognosis and Treatment
- Colorectal Surgery – Techniques, Complication Avoidance and Management
- Improving Interpersonal Communication
- Future Developments in Evidence-Based Medicine
- Changing Concepts in Medical Oncology
- Surgical Management of Colorectal Lung and Liver Metastases
- Comparison of Image-Guided Ablation Techniques
- European Consensus on Radiotherapy
- Quality of Life

GOALS OF THE CONFERENCE

The goal of this conference is seen in giving the latest updates concerning the current techniques of surgical treatment, prognostic factors, and biological therapies in colorectal cancer.

Early detection, imaging methods, preoperative work up, optimum time handling of multimodal treatment options will be discussed in interactive sessions and round table meetings.

This conference will merge a multidisciplinary group of experts in the field of surgery, radiology, radiotherapy, pathology, gastroenterology as well as oncology. Consensus statements for different open questions will be worked out as an implication of the lively discussions we will expect for certain.
