#### PRESIDENT

*Enrico Corazziari*

#### SYMPOSIUM SCIENTIFIC SECRETARY

*Danilo Badiali*

#### COORDINATOR

*Emanuela Crescini*

John Ratner, "Medicine Man", 1989

#### AIM

*The symposium will provide critical information for the management of disorders of intestinal function overcoming the contraposition between organic, functional and psychological factors.*

#### MAIN TOPICS

- *Common features of disorders of intestinal function*
- *Clinical presentation, pathophysiology and treatment of*
  - ❖ Diarrheal illness
  - ❖ Constipation illness
  - ❖ Abdominal pain
  - ❖ Abdominal bloating

# SCIENTIFIC PROGRAMME

❖ **February 8, 2006** REGISTRATION 12.00 - 19.30

## Day 1

❖ **February 9, 2006** REGISTRATION 7.00 - 8.00  
full day scientific session 8.00 - 18.30

## ⇒ COMMON FEATURES OF DISORDERS OF INTESTINAL FUNCTION

### Session 1

- Definition and common features
- Categorization of disorders of intestinal function
- Epidemiology, individual and socio-economic burden
- Gender and genetic
- Assessing and treatment of psychological aspects
- Altered sensitivity and motor function: any test?
- Alternating bowel disorders

### Poster viewing

### Session 2

- Pathophysiology of abdominal bloating
- Clinical presentation of abdominal bloating

### Free paper presentations

### Session 3

- Abdominal pain related and unrelated to bowel alterations
- Therapeutic approach to abdominal pain
- Treatment of abdominal pain and discomfort by manipulation of intestinal flora with pro-biotics and pre-biotics
- Treatment of abdominal pain and discomfort by manipulation of intestinal flora with antibiotics
- Management of abdominal pain in children

### ROUND TABLE

Food, diet, and intestinal symptoms

## *Day 2*

❖ **February 10, 2006** full day scientific session 8.00 - 18.30

### ⇒ **DIARRHOEAL ILLNESS AND ANAL CONTINENCE CONTROL IN DISORDERS OF INTESTINAL FUNCTION**

#### **Session 1**

- Symptomatic manifestations of diarrhoeal illness
- Mechanisms of diarrhoea in disorders of intestinal function
- Postinfectious disorders of intestinal function
- Disorders of intestinal function in patients with organic bowel disease
- Mechanisms of anorectal physiology in diarrhoeal illness
- Clinical presentation of diarrhoea in disorders of bowel function

Poster viewing and discussion with the authors

#### **Session 2**

- Diarrhoeal illness in patients with gastro-oesophageal reflux disease
- Diarrhoeal illness in patients with functional dyspepsia

Free paper presentations

#### **Session 3**

- Dietary treatment
- Treatment of diarrhoea by manipulation of intestinal flora
- Pharmacological treatment of diarrhoea
- Management of diarrhoea in children
- Diagnostic and therapeutic algorithms in patients with diarrhoeal illness

## *Day 3*

❖ **February 11, 2006** full day scientific session 8.00 - 18.30

### ⇒ **CONSTIPATION ILLNESS IN DISORDERS OF INTESTINAL FUNCTION**

#### **Session 1**

- Symptomatic manifestations of constipation illness
- Mechanisms of constipation
- Clinical presentation of constipation illness
- Constipation illness in patients with upper gastrointestinal disorders

Free paper presentations

Poster viewing

#### **Session 2**

- Dietary treatment
- Pharmacological treatment of constipation illness
- Non pharmacological treatment of constipation
- Management of constipation illness in children
- Diagnostic and therapeutic algorithms in patients with constipation illness

### ⇒ **EMERGING THERAPIES**

- Opening remarks
- Disorders of Intestinal Function: novel therapeutic strategies with emerging drugs

Preliminary Program

- The role of Mediterranean diet on gastrointestinal function
- GERD and nutritional aspects: a new approach or an old sound?
- IBS: has the diet a therapeutic role?
- Intestinal gas: the dietetic management of bloating and belching
- Malnutrition and IBD. The nutritional treatment: fancy or reality?
- The role of probiotics on colonic motility
- Post-operative nutritional treatment for gastrointestinal rehabilitation

# International Symposium on APPROACH TO THE PATIENT WITH DISORDERS OF INTESTINAL FUNCTION

## FUNCTIONAL INTESTINAL DISORDERS

Classification of Disorders of Intestinal Function (DIF) into mutually exclusive categories based on predefined consensus criteria is useful to identify clinically homogeneous populations, but in many patients, do not match

- ❖ Natural clustering of symptoms
- ❖ Time course of symptom presentation
- ❖ Patient's report of symptoms
- ❖ Patient's judgement of his (her) own symptoms
- ❖ Physician's judgement of patient's symptoms
- ❖ Available, and newly emerging, drugs targeted to, and more relevant **contraindicated** in, specific subgroups of bowel disorders.

In addition predefined consensus criteria have progressively (from Manning to Rome I and II Criteria), excluded patients not matching the major clinical presentations of DIF (unspecified or *quasi* syndromes), and have emarginated patients with overlap syndromes. The main aim of the symposium is to provide critical and updated information useful for the management of patients with the different clinical presentations of DIF. These include (a) the major syndromes: IBS, IBS subtypes, Functional Diarrhea, Functional Constipation, Anorectopelvic dysfunction, Abdominal Pain, Abdominal Bloating, (b) the Unspecified *Quasi* syndromes, (c) the Overlap syndromes.

### COMMON FEATURES OF DIF

- ❖ Genetics
- ❖ Gender
- ❖ Extragastrintestinal symptoms
- ❖ Quality of life
- ❖ Psychosocial aspects
  - Illness behavior
  - Therapeutic approach

### ABDOMINAL PAIN & BLOATING

- ❖ Unrelated to bowel alteration
- ❖ Related to constipation illness
- ❖ Related to diarrheal illness
- ❖ Therapeutic approach

### DIARRHEAL ILLNESS

- ❖ Epidemiology
- ❖ Symptom presentations
- ❖ Intestinal and anorectal mechanisms
- ❖ Major, *quasi* and overlap syndromes
- ❖ Therapeutic approach

### CONSTIPATION ILLNESS

- ❖ Epidemiology
- ❖ Symptom presentation
- ❖ Intestinal and anorectal mechanisms
- ❖ Major, *quasi* and overlap syndromes
- ❖ Therapeutic approach

### EMERGING THERAPIES
