## INTRODUCTION

On behalf of the Organising Committee, I look forward to welcoming you to Birmingham in June of this year for our 14th Annual Meeting. An excellent programme is awaiting you. The BJS Lecturer this year will be Vic Fazio talking on predicting ileo-anal pouch failure. There will be two symposia on bowel cancer; the first on the most cost-effective modalities for its prevention and treatment including changes in diet and lifestyle changes, screening, surgical modalities and chemo-radiotherapy. We have excellent speakers including Les Bokey from Sydney, Australia, Muir Gray, Director of Public Health for Oxford and Chairman of the National Audit Committee and Mike Richards, National Cancer Director, Sheila Bingham from Cambridge and Wendy Atkin from Cancer UK. The second session is on measuring clinical outcomes from the treatment of bowel cancer, which will include an address from Maria Shortis, who founded a new charity, Constructive Dialogue for Clinical Accountability (CDCA). She was very much involved in the problems in Bristol and can give a very personal account of how this happened and how we can avoid it in the future. She is now helping us to formulate ways of disseminating the data from our national audit of bowel cancer. There will be an opportunity for you to air your views on this important topic.

There will be other symposia including one on anal incontinence with Cor Baeten from Maastricht updating us on the relative values of all the surgical treatments for this, and another on diverticular disease including radiological management of intra-abdominal abscesses.

There will be important contributions from oncologists, pathologists and radiologists on the latest advances in these areas.

The training session is on laparoscopic colorectal surgery and how we can remove the blocks in training so that this can come of age as an important part of colorectal surgery.

We were delighted to have four hundred and twenty-one abstracts submitted, our highest ever number, ninety-six of which have been accepted for oral presentation and over one hundred and fifty others as poster presentations. The quality of the submissions was excellent, and it was very difficult to select which ones should be presented.

As usual there will be a full social programme including a Welcome Reception on the 28th June at the ICC and the main social event on the 29th June at the Birmingham Museum and Art Gallery with musical and magical entertainment. We hope this will be a great opportunity for multi-disciplinary teams to once again get together in social situations and above all have a very enjoyable time.

There will be another Fun Run and we hope as many delegates as possible will get involved in this, even if it is just to come along and cheer their braver colleagues. Delegates can run, jog, walk or support, and this will all help raise money for future research into bowel cancer.

We are certain that this will once again be a very enjoyable, stimulating and valuable Meeting for you to attend and the Organising Committee look forward to seeing you in Birmingham.

**Michael Thompson**  
**President**

## 5K Fun Run/Walk - Wednesday 30 June

We would like to invite you all to put on your running shoes and take part in a 5km Fun Run/Walk in aid of Colon Cancer Concern (CCC) and The Colon and Rectal Disease Research Foundation. In 2003 we raised nearly £15,000 – this year we must double it!

**The 2004 Fun Run will be held at 17:00 on Wednesday, 30 June in Birmingham's Cannon Hill Park** and follows the enormous success of last year's event in Edinburgh. We hope that with your support, the Fun Run/Walk will grow in its success and become an unmissable annual event dedicated to raising awareness of colorectal cancer in the UK. The warm up provides you with the unique chance of seeing those grand old Dukes of Surgery looking completely stupid!

The Fun Run/Walk is not only the perfect excuse to get fit, but also a great way to raise money for a very worthwhile cause. We are asking runners to raise £105 through sponsorship and fundraising (students £50 and patients £100). All money raised, after expenses, will be split equally between CCC and The Colon and Rectal Disease Research Foundation.

Colon Cancer Concern (CCC) is the UK's leading national charity dedicated to reducing deaths from colorectal cancer and improving the quality of life of those affected by the disease through awareness, information, education and campaigning. The Colon and Rectal Disease Research Foundation raises and administers charitable funds for teaching, training and research into all forms of colon and rectal disease.

To secure your Fun Run place please fill in the registration form and send it to Emma Watson at CCC: telephone number 020 7381 9711. Expert advice on training and fundraising will also be made available to everyone who takes part.

## ACCOMMODATION BOOKING SERVICE

The following hotels offer a range of accommodation at varying prices to suit all pockets. Please note that the price of each does not necessarily reflect the standard of accommodation. On receipt of your booking form advising your choice of hotel we will make the reservation on your behalf with the hotel and forward an accommodation confirmation to yourself.

The hotel may then contact you directly to request a deposit. Please note that should you have to cancel prior to the event or on the day of arrival the hotel reserve the right to hold your deposit or charge one night's accommodation as a cancellation payment.

Each delegate is responsible for settling their own hotel account and any extras i.e. telephone calls, newspapers, bar bills, meals etc. on departure.

The Association of Coloproctology of Great Britain & Ireland and Sovereign Conference will not be held responsible for any accounts not settled by the individual.

All reservations for accommodation, including any amendments/additions/cancellations, are to be made through Sovereign Conference in order to obtain the rates as shown. Additional nights may be arranged, subject to availability, upon request to Sovereign Conference.
