

**Dear Friends,**

On behalf of the Organising Committee it is my privilege to invite all who are interested in or who work in the field of coloproctology to take part in our forthcoming meeting.

The international and the national congresses of the Association of Coloproctology of Hungary are always recognised for their high professional standards, for the continuous effort made to establish and cultivate international and interdisciplinary co-operation, and for paying special attention to the education of nurses and assistants. Our intentions will be the same in 2007.

We probably will have an amazing and rememberous days together. We take this meeting as a mile stone in the course of nascence of a new specialisation in surgical professions in one of the newest country of European Union. We recommend this meeting in to your kindest interest more than one way. Topics are selected for answering questions raised from the daily practice.

**Iván Bartha**  
President of ACPH
