

28 November – 2 December 2016, St.Gallen, Switzerland

Jubilee Congress - 10 years ECC

SCIENTIFIC PROGRAMME

Monday
28 November 2016

MASTERCLASS IN COLORECTAL SURGERY

**Complex anal fistula –
addressing a vexing problem**
Herand Abcarian, USA

**The EBSQ Coloproctology
examination**
Michel Adamina, CH

**Getting out of troubles:
leaking low anastomosis and
non healing perineal wound**
Willem Bemelman, NL

**What your oncologist can
do for you – outcomes of
contemporary therapies and
caveat for the surgeon**
Ulrich Güller, CH

**Diverting ileostomy – when
to do it, how to live with it,
and when to revert it**
Richard Guy, UK

**When and how to perform
an (extralevator) abdominal
perineal excision for low
rectal cancer**
Brendan Moran, UK

**Established and new
prognostic factors in
oncologic surgery**
Philip Quirke, UK

**Pudendal neuropathy
revisited – step by step
release of the pudendal
nerve**
Bruno Roche, CH

**Clinical outcomes and
quality of life in complex
pelvic surgery**
Peter Sagar, UK

**To resect or to neglect:
options for the primary
tumor in metastatic
colorectal cancer**
Paris Tekkis, UK

**Operative strategies for
acute diverticular peritonitis**
Desmond Winter, IE

Tuesday
29 November 2016

CONGRESS OPENING AND WELCOME

Anorectal trauma
Herand Abcarian, USA

**Saving the sphincter –
a story of surgical evolution**
Neil Mortensen, UK

**Ultralow anterior resection –
how far can I go**
Eric Rullier, FR

**Restaging after neoadjuvant
chemoradiation for rectal
cancer and changes in
surgical management**
Paris Tekkis, UK

LUNCH SYMPOSIUM

Video session

**An update on RAPIDO trial –
Rectal cancer And Preopera-
tive Induction therapy
followed by Dedicated
Operation**
Cornelis van de Velde, NL

**Prevention and treatment
of anastomotic stricture**
Richard Guy, UK

**Improving surgical
performance**
Brendan Moran, UK

Wednesday
30 November 2016

BREAKFAST SYMPOSIUM

**When not to operate in rectal
cancer**
Chris Cunningham, UK

**Complications: how can
the colonoscopist help the
surgeon and the surgeon
help the colonoscopist?**
Jonathan Hoare, UK

**Laparoscopic lysis of
adhesions**
Desmond Winter, IE

**How to deal with
presacral mass**
Peter Sagar, UK

**Pelvic pain: clinical
conundrum or clinician's
nightmare**
Bruno Roche, CH

LUNCH SYMPOSIUM

Video session

**Prevention and repair
of perineal hernia**
Timothy R. Rockall, UK

**Back to the future:
mechanical bowel
preparation and oral
antibiotics revisited**
Ravi Kiran, USA

**Refractory ileocecal Crohn:
resection or medication?**
Willem Bemelman, NL

Thursday
1 December 2016

BREAKFAST SYMPOSIUM

**Interdisciplinary manage-
ment of colonic volvulus**
Justin Davies, UK

**Perfusion angiography
in colorectal surgery**
Luigi Boni, IT

**Treatment of uncommon
colorectal tumor**
Ronan O'Connell, IE

**Indications, technique, and
long-term results of ventral
rectopexy**
André D'Hoore, BE

**Beyond sphincter repair
and SNS: advanced surgical
procedures for fecal
incontinence**
PA Lehur, FR

**What makes a laparoscopic
cancer surgery unsafe**
George Hanna, GB

LUNCH SYMPOSIUM

New techniques in Robotics
Philippe Rouanet, FR

**Safe entry into the
reoperative abdomen**
Alexis Ulrich, DE

**Consensus Conference
St.Gallen consensus on safe
implementation of transanal
total mesorectal excision**

**taTME – select patients,
selective procedure?**
André D'Hoore, BE

**Current evidence and open
Trials**
Jurriaan Tuynman, NL

Surgical technique - key steps
Antonio Lacy, ES

**Specific complications and
pitfalls**
Matthew Albert, USA

**Procedure teaching and safe
implementation**
Roel Hompes, UK

Functional outcomes
Antonino Spinelli, IT

**Presentation of the St.Gallen
Consensus on safe taTME**
Michel Adamina, CH +
Roel Hompes, UK

**Round table with audience
participation**
Expert Panel

Friday
2 December 2016

BREAKFAST SYMPOSIUM

**Time matters:
synchronous vs metachro-
nous liver resection**
Markus Büchler, DE

Two stage hepatectomies
Jacques Belghiti, FR

**Ablative liver therapies
and radioembolization**
Jakob Freedman, SE

**Liver first – evidence vs
experience**
Pietro Majno, CH

**Laparoscopic liver
metastases resection**
Luca Aldrighetti, IT

**Challenging unresectability –
Clinical results from the
ALPPS**
Erik Schadde, USA/CH
