Trans-anal Total
Mesorectal Excision

Course Director

Prof. Antonino Spinelli

MD, PhD, FASCRS

Chief, Colon and Rectal Surgery, Humanitas Research Hospital - Associate professor of Surgery, Humanitas University Rozzano Milano

Our workshop is aimed at colorectal surgeons experienced in laparoscopic and/or robotic rectal surgery, and ideally also experienced with transanal surgery, especially TEM and TAMIS.

This 2-day course focuses on the rationale for TaTME and appropriate patient selection.

It will cover all practical aspects required to set up a safe and effective service.

Our TaTME course, who had his first edition in 2015, is unique for in-depth didactic lectures, explanatory videos and hands-on training on simulators as well as on **human cadavers** (2 trainees per cadaver) provided by **internationally renowned experts** in the field.

The course is usually run for 8 to 10 delegates and surgeons are strongly encouraged to sign up in teams.

Understanding rationale, appropriate patient selection, key steps and anatomic landmarks for TaTME as well as the potential pitfalls are essential milestones of a multistep training (encompassing also live cases observations, proctoring and auditing) for the establishment of safe and effective TaTME program.

Antonino Spinelli

March 22 | 23, 2018

DAY1 BACKGROUND AND THEORY

- 16:00 WELCOME & INTRODUCTION - All Faculty
- 16:10 Minimally invasive rectal cancer surgery - P. de Paolis
- 16:30 Rationale, indications and benefits of TaTME - M. Adamina
- 16:50 Equipment and operating room set-up (1 team vs 2 team) - S. K. Perdawood
- 17:10 Step by step procedure overview - A. Spinelli
- 17:30 Pitfalls, tips & tricks - M. Albert
- 17:50 How to start a taTME program - I. Montroni
- 18:10 Unedited video session of 2 TaTME - All Faculty
- 19:05 Wrap up and questions - All Faculty
- 19:20 End of the first day

DAY2 CADAVER LAB

- 08.00 Wet lab introduction
- 08.15 Hands On: Dry lab pursestring training
Procedure performed under direct supervision of experienced tutors (2 trainees per cadaver)
- 09:00 **LIVE SESSIONS ON CADAVERS**
Trans-anal pursestring
Insertion of TAMIS port and trans-anal purse-string
Trans-anal TME: pelvic dissection
Preparation of the proximal colon
Distal purse-string and stapled anastomosis
Quality assessment
- 14:30 Review of specimens and TME quality
Interactive session
Procedure debrief (what went wrong and what was easier than expected)
- 16.00 Final Questions and adjourn
