## DEAR COLLEAGUES,

The Surgical Departments of the Semmelweis University warmly invite you to the second Budapest Proctology Workshop to be held on November 23-24, 2018.

The success of the first meeting and requests from participants motivated us to organise a second one. This time the two-day course will be focusing on the everyday practice of more complex aspects of proctology. The conference will be just as interactive as it was two years ago. Some of Europe's foremost practitioners will be delivering state of the art lectures followed by video presentations and discussion.

The main topics will be:

1. Sexually transmitted disease
2. Anal neoplasia
3. Errors and faults in proctology
4. Perineology – pelvic floor disorders
5. Pelvic and anal pain
6. Proctitis
7. Innovation in proctology
8. Anal manifestations of Crohn's disease
9. Complicated anal fistulas

We are confident that this conference will be invaluable in providing diagnostic insight and therapeutic answers to a full range of complex questions raised by pelvic floor pathology.

We intend to once again bring together acknowledged expertise and the most enthusiastic audience from the whole world. The course will be conducted in English.

**We look forward to seeing you in Budapest in November.**

**Yours faithfully:**

**ÉVA CSATÁR**  
**PETER WILLNER-HARING**  
**GÁBOR ISTVÁN**
