

## Candidatura al Consiglio Direttivo SICCR

Napoli, 12/09/2019

Al Presidente SICCR prof F Selvaggi,

Egr. presidente

con la presente desidero porre la mia candidatura alle elezioni del CD SICCR 2019-2021 in occasione del prossimo Congresso Nazionale di Biella.

La mia attività professionale è prevalentemente volta alla chirurgia oncologica ed in particolare allo sviluppo di attività di screening oncologici, PDTA e GOM. Ritengo che in questo momento storico di cambiamenti della sanità italiana sia fondamentale l'impegno della nostra società su questi specifici temi ed in particolare che sia fondamentale per la nostra società agire da cerniera fra quelle che saranno le direttive ministeriali (anche in tema di programma esiti, accreditamenti di ospedali, di istituzioni e società) e lo sviluppo di questi temi sul territorio. In tal senso potrebbe rivelarsi utile la mia recente esperienza nel CD del GISCOR società interdisciplinare deputata allo sviluppo di screening e percorsi oncologici. Ritengo altrettanto importante che la nostra società si impegni nella diffusione dell'alta tecnologia e che partecipi fattivamente al training dei colleghi più giovani allargando l'offerta formativa alle tecniche di più recente acquisizione. In ultimo credo che sia importante ripensare il ruolo della nostra società sia in Italia e quindi nei rapporti di collaborazione con l'altra società coloproctologica italiana, sia in Europa promuovendo una più significativa presenza dei colleghi italiani all'interno dell'ESCP.

Allego mio CV

Saluti

**Francesco Bianco**
