

8° CONGRESSO NAZIONALE
Società Italiana di Chirurgia Colorettales
BIELLA, 11-13 NOVEMBRE 2019

SICCR's GOT TALENT -
Lunedì 11 novembre 2019, ore 9.00 – 12.00
Palazzina Universitaria

(Dei 20 lavori ne saranno selezionati 5 per la sessione SICCR's GOT TALENT di martedì 12 novembre ore 12.20 in AUDITORIUM in sessione plenaria)

- 1 **F. P. Tropeano** *Surgical Prevention of anastomotic Recurrence by Excluding Mesentery in Crohn's Disease: the SuPREMe-CD Study*
- 2 **G. Rizzo** *TEM vs TME in ypT0-1 rectal cancer after pre-operative radiochemotherapy: post-operative morbidity, long-term oncologic outcome and functional results*
- 3 **V. De Simone** *Long term functional outcomes, quality of life and manometric findings after TaTME for middle or low rectal cancer.*
- 4 **N. Chetta** *Prevention of anastomotic leak in colorectal surgery by glue reinforcement. Preliminary results of a prospective controlled randomized trial.*
- 5 **A. Salzano** *Presence of apoptosis in diagnostic rectal cancer biopsies predicts complete response (trg1) to neoadjuvant chemo-radiotherapy*
- 6 **A. Morini** *T1 Colorectal Cancer: only well differentiated (G1) tumors at histology may exclude regional lymph node metastases and allow avoiding radical surgery*
- 7 **E. Ponte** *Indocyanine green injection for sentinel lymph node mapping in colonic surgery: our technique and experience*
- 8 **F. Cravero** *Young patients affected by colorectal cancer in a district hospital.*
- 9 **F. Colombo** *Repeated surgery for recurrent crohn's disease: does the outcome keep worsening operation after operation? A comparative study of 1224 procedures*
- 10 **G. Mantovani** *Investigating outcomes of transient or evolving ischemic colitis (IC) by matching histopathological findings, clinical course and follow-up. A four-ye*
- 11 **N.S. Pipitone federico** *Early rehabilitation for low rectal cancersu: our experience*

8° CONGRESSO NAZIONALE
Società Italiana di Chirurgia Colorettale
BIELLA, 11-13 NOVEMBRE 2019

- 12 **A. Frontali** *Recurrent rectovaginal fistula: how can we reduce the failure rate of graciloplasty? A bi-centric European study in 61 patients.*
- 13 **G. Bislenghi** *Iatrogenic rectourethral fistula at tertiary referral center. A retrospective analysis on 51 consecutive surgical cases.*
- 14 **R. Tutino** *Which role for HBOT in the treatment of Fournier's gangrene?*
- 15 **D. Passannanti** *A web-app in proctology 2.0*
- 16 **M. Calussi** *Acute painful anal fissure: role of 0.2% methylene blue solution.*
- 17 **S. Fulginiti** *Endoscopic pilonidal sinus treatment (Epsit): A multicentre study*
- 18 **M. De Angelis** *Sinus Laser ablation of the Cyst (SiLaC®): short-term clinical results of a new mini-invasive treatment of pilonidal cyst disease*
- 19 **S. Cornaglia** *Laparoscopic POPS procedure in the treatment of pelvic prolapse : Single Centre Experience*
- 20 **L. Monteleone** *The laparoscopic ventral rectopexy for the treatment of external rectal prolapse and obstructed defecation syndrome. Our experience*

SESSIONE VIDEO

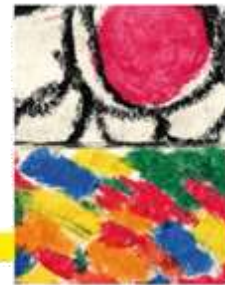

Martedì 12 novembre – Palazzina Universitaria

1^a Sessione 8.30 – 9.30

- 1 **M. Roveroni** *Chronic anal fissure treatment: fissurotomy and methylene blue dye injection*
- 2 **E. Stratta** *Altemeier procedure for the treatment of complete rectal prolapse (video)*
- 3 **A.M. Tamburini** *Silac an innovative technique for pilonidal disease treatment.*
- 4 **A. Sturiale** *Is side-to-side shape a valid alternative to the advancement flap for complex anal fistula closure?*

8° CONGRESSO NAZIONALE
Società Italiana di Chirurgia Coloretale
BIELLA, 11-13 NOVEMBRE 2019

- 5 **G. Gallo** *Martius' flap for recurrent rectovaginal fistula in a patient with Crohn's disease*
- 6 **A. Sturiale** *A modified robotic ventral rectopexy with a folded single titanized mesh suspension for the treatment of complex pelvic organ prolapse*

VIDEO

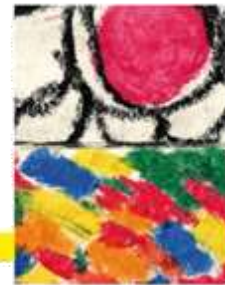

Martedì 12 novembre – Palazzina Universitaria

2^a Sessione 10.30 – 13.00

- 1 **F.P. Tropeano** *Preventing surgical recurrences in crohn's disease: intra and extra corporeal kono-s anastomosis*
- 2 **V. Raveglia** *Laparoscopic treatment of a T₄ adenocarcinoma of sigmoid rectal junction with involvement of right spermatic vessels and right spermatic duct*
- 3 **J. Widmann** *Early rectal cancer – Transanal-Microsurgery in combination with Submucosal Dissection: a new approach (TEM-ESD) for successful treatment of early re*
- 4 **S. Macina** *Complete mesocolic excision (cme) for right colon cancer: our technique*
- 5 **D. Baldassarri** *Laparoscopic right colectomy with CME and central lymphadenectomy: should we prefer going bottom to up?*
- 6 **L. Dova** *Videolaparoscopic right hemicolectomy with complete mesocolic excision*
- 7 **D. Baldassarri** *Laparoscopic splenic flexure mobilization: tips and tricks*
- 8 **C. Bianco** *Video of indocyanine green fluorescence guided robotic left colectomy with complete mesocolic excision*
- 9 **S. Mochet** *Wide excision of anal canal AIN III: a video*
- 10 **P. Salusso** *Wide local excision of a Buschke-Löwenstein tumour*
- 11 **A. Fontana** *"Rescue TAMIS" for low rectal adenoma after previous ESD attempt*

8° CONGRESSO NAZIONALE
Società Italiana di Chirurgia Coloretale
BIELLA, 11-13 NOVEMBRE 2019

- 12 **A. Fontana** *(Video) transanal proctectomy and ileal pouch-anal anastomosis for ulcerative colitis: our experience*
- 13 **S. Perotti** *Ileal pouch-anal anastomosis with combined transanal and laparoscopic approach for ulcerative colitis (video)*
- 14 **V. Raveglia** *Right retroperitoneal abscess or recurrent appendicitis?*
- 12 **O. Ghazouani** *Laparoscopic treatment of a challenging case of acute diverticulitis after previous laparoscopic peritoneal lavage*

SESSIONE POSTERS

MARTEDI' 12 NOVEMBRE - SALA POSTERS

ore 16.00-17.00

- 1 **F. Carannante** *Medium term functional outcomes of transanal proctectomy and ileal pouch-anal anastomosis for Ulcerative Colitis: A single institutional experience.*
- 2 **G. Rizzo** *Do pre-operative radiochemotherapy affect post-operative outcomes and functional results at 1 year in patients treated by TEM?*
- 3 **F. Sabbatino** *Preoperative training program*
- 4 **A. Annicchiarico** *Signet-ring cell colorectal carcinoma: N status is the only predictor of survival.*
- 5 **L. Romano** *Laparoscopy vs laparotomy in the treatment of the low rectal cancer: meta-analysis of randomized controlled trials*
- 6 **G. Osella** *Malnutrition and neoadjuvant therapy for rectal cancer*
- 7 **GA Binda** *The impact of previous transanal surgical excision of early rectal cancer on completion radical rectal resection: a review*
- 8 **A Romboli** *Does mucinous histotype affect prognosis of stage iii colorectal cancer? A retrospective analysis of 761 patients.*

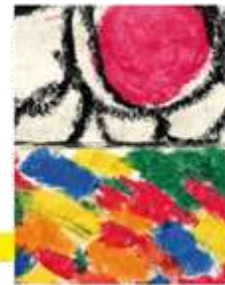

8° CONGRESSO NAZIONALE
Società Italiana di Chirurgia Colorettale
BIELLA, 11-13 NOVEMBRE 2019

- 9 **A Nicotera** *Short Term Outcomes After Elective and Urgent Surgery for Colorectal Cancer in The Oldest Old Population: A Single Hospital Five Year Experience*
- 10 **A Annicchiarico** *Applications of Indocyanine Green Enhanced Fluorescence in laparoscopic colorectal resections*
- 11 **P. Lukianiuk** *Surgical treatment experience of patients with locally advanced colon tumors/*
- 12 **R. Gosavi** *Transanal endoscopic microsurgery - a tertiary centre experience*
- 13 **A Morini** *Locally advanced rectal cancer: tumor regression grade and lympho-vascular invasion are the best predictors of long-term outcome.*
- 14 **B. Martin-perez** *Tamis proctectomy with two-stage turnbull-cutait pull-through coloanal anastomosis for iatrogenic rectourethral fistulas*
- 15 **E. Ponte** *Indocyanine green fluorescence imaging to evaluate perfusion in colorectal surgery: a case control study*
- 16 **E Mazzotta** *Enhanced recovery after colorectal surgery (eras) protocol: initial results of an italian experience.*
- 17 **A. Usai** *Robotic versus laparoscopic surgery for rectal cancer: comparisation of short terms outcomes and our experience*
- 18 **M. Ricciardiello** *Laparoscopic reversal Hartmann following open procedure: a difficult procedure with good results*
- 19 **G. Sena** *The prognostic value of KRAS and BRAF in stage I-III colorectal cancers: a systematic review*
- 20 **F. Cravero** *Management of colon cancer resection in elderly patients: short-term outcomes in a district hospital.*
- 21 **S. Cornaglia** *Sufentanil Sublingual Tablet System as key-component of a multimodal protocol for pain control in laparoscopic colorectal surgery*
- 22 **A. Lauretta** *Transanal Minimally Invasive Surgery for rectal tumors (TAMIS): initial experience.*

8° CONGRESSO NAZIONALE
Società Italiana di Chirurgia Colorettale
BIELLA, 11-13 NOVEMBRE 2019

- 23 **R. Gosavi** *Transanal endoscopic microsurgery (TEMS) – a safe and effective resection for T1 rectal cancers*
- 24 **G. Osella** *Recent advances in neoadjuvant chemoradiotherapy for rectal cancer*
- 25 **L. Panier suffat** *Complete clinical response and organ preservation in rectal cancer, it's safe?*
- 26 **A. Caiazzo** *Training value of online videos demonstrating Transanal Total Mesorectal Excision (TATME)*
- 27 **I. Giani** *PAP test, HR HPV test, High Resolution Anoscopy for the screening of HPV related anal lesions.*
- 28 **P. Salusso** *Surgical treatment of perianal paget disease*
- 29 **E. Lavorini** *Anal canal adenocarcinoma with neuroendocrine features on a hemorrhoidal nodule: a case report*
- 30 **C. Feo** *Mucinous adenocarcinoma of the anal canal associated with multiple dysplastic polyps of the colon*
- 31 **A. Giuliani** *Late and severe complications of radio-chemotherapy for anal cancer: report of two cases.*
- 32 **M. Assenza** *Emergency colorectal surgery: complications and role of diverting stoma*
- 33 **F. Pata** *EAGLE study: aiming to reduce leak rate after right hemicolectomy and ileocaecal resection. An opportunity for Italian centres.*
- 34 **F. Maiello** *Application of ERAS protocol in colorectal surgery on population over 70 : risk or benefit?*
- 35 **D. Passannanti** *Usefulness of a postoperative checklist in proctological surgery*
- 36 **A. Amendola** *Combined surgical and negative pressure therapy to treat multiple enterocutaneous fistulas and abdominal abscesses in a severely ill septic patient. A*

8° CONGRESSO NAZIONALE
Società Italiana di Chirurgia Colorettale
BIELLA, 11-13 NOVEMBRE 2019

- 37 **A. Usai** *Sex and comorbidities are risk factors for leakage in colorectal surgery? Our experience*
- 38 **D. C.** *Underdiagnosis and rising rate of obstetric anal sphincter injuries. Dimensional ultrasound evaluation*
- 39 **U. Grossi** *Systematic characterisation of defaecographic abnormalities in a consecutive series of 827 constipated patients and impact of sex.*
- 40 **A. Usai** *Reversal of hartmann procedure: our experience*
- 41 **A. Langone** *Laparoscopic peritoneal lavage in acute diverticulitis: the experience of two provincial hospital*
- 42 **F. Litta** *Is the sphinkeeper implant effective in fecal incontinent patients with sphincter lesions?*
- 43 **U. Grossi** *Injectable bulking agents for fecal incontinence: an age-matched retrospective cohort analysis of gatekeeper versus sphinkeeper.*
- 44 **U. Grossi** *Coexistence of fecal incontinence and constipation in adults is an underappreciated clinical problem*
- 45 **F. Litta** *Long-term outcome of sphinkeeper for the treatment of fecal incontinence*
- 46 **A. Parello** *Improvement of both obstructed defecation and fecal incontinence after ventral rectopexy in patients with enterocele and rectal prolapse*
- 47 **A. Sturiale** *An innovative treatment for anal incontinence: initial experience of micro-fragmented autologous adipose tissue injection*
- 48 **U. Grossi** *Middle-term outcomes of Gatekeeper implantation for fecal incontinence.*
- 49 **A. Giuliani** *Early results and quality of life after sphinkeeper implant for mild fecal incontinence*
- 50 **G. Lisi** *Sphinkeepertm: Preliminary Report of 13 Cases*

8° CONGRESSO NAZIONALE
Società Italiana di Chirurgia Colorettale
BIELLA, 11-13 NOVEMBRE 2019

- 51 **V. Tiesi** *#surgicaltraining on Twitter: A New Way To Learn*
- 52 **A. Frontali** *Recurrent rectovaginal fistula in Crohn's disease: how can we reduce the failure rate of graciloplasty? A bi-centric European study in 30 patients*
- 53 **A. Frontali** *Segmental colectomy versus extended colectomy for colonic Crohn's disease: results from 112 consecutive patients.*
- 54 **A. Frontali** *Segmental colectomy for ulcerative colitis: a new paradigm? A multicentric study in 72 patients.*
- 55 **A. Caiazzo** *Increased postoperative use of Computed Tomography following emergency surgery for ileocaecal Crohn's disease*
- 56 **Zaffaroni G.** *Analysis of outcome and risk factors for complication and failure after ileal pouch anal anastomosis in inflammatory bowel disease*
- 57 **S. Perotti** *Early and midterm outcomes of ileal pouch-anal anastomosis with combined transanal and laparoscopic approach for ulcerative colitis: initial experience*
- 58 **F. Gonella** *Panenteritis after colectomy for ulcerative colitis: case report and literature review*
- 59 **R. Galleano** *Laparoscopic approach for surgical treatment of Crohn's disease*
- 60 **D. Cafaro** *Preliminary results in the treatment of endoanal inflammatory processes with the use of bergamot gel (Benebeo gel)®.*
- 61 **A. Parello** *Differences in functional outcomes after ventral rectopexy between hysterectomized and non-hysterectomized patients*
- 62 **F. Cravero** *Initial experience with peristeen in patients affected by anterior resection syndrome.*
- 63 **A. Parello** *Improvement of functional outcome in patients treated with Ventral Rectopexy for full-thickness external rectal prolapse*
- 64 **U. Grossi** *Stepped-wedge randomised trial of laparoscopic ventral mesh rectopexy in adults with chronic constipation: a randomised controlled trial.*

8° CONGRESSO NAZIONALE
Società Italiana di Chirurgia Coloretta

BIELLA, 11-13 NOVEMBRE 2019

- 65 **B. Pessia** *Hemorrhoids in pregnancy: results from a self-assessment questionnaire administered by means of a social network*
- 66 **F. Litta** *Cytokines, chemokines and growth factors associated to cryptoglandular anal fistulas: a prospective study.*
- 67 **R. Laforgia** *Short-term results of sclerotherapy with 3% polidocanol foam in 95 patients affected by symptomatic second- and third-degree haemorrhoidal disease.*
- 68 **F. Caminati** *Outpatient "Symptomatic Pile Tailored Procedure" for hemorrhoidal disease: Our experience.*
- 69 **F. Caminati** *Tailored Anal Block (TAB): a new anesthesiological procedure for the treatment of hemorrhoids in the ambulatory environment.*
- 70 **F. Litta** *Simple anal fistula: is it all simple?*
- 71 **G. Martinisi** *Surgical treatment of complete rectal prolapse: results in 65 consecutive female patients*
- 72 **C. Tanda** *Autologous Micro-fragmented Adipose Tissue (LIPOGEMS): the role of Mesenchymal Stem Cells for the treatment of ano-perineal and vulvo-vaginal radioder*
- 73 **A. Sturiale** *Micro-fragmented autologous adipose tissue injection for fistula-in-ano (MAATIFA) in patients with Crohn's disease: a prospective observational study*
- 74 **C. Pagano** *Evaluation of Mucopexy - Recto Anal Lifting (mural) in patients on long-term treatment with oral anticoagulants*
- 75 **A. Sturiale** *Micro-fragmented autologous adipose tissue injection for fistula-in-ano (MAATIFA): a prospective observational study*
- 76 **I. Giani** *"Fast Track Proctology": a charming ERAS protocol.*
- 77 **C. Tanda** *Tailored Mucosectomy & Hemorrhoidopexy (TM&H): a new surgical option for the conservative treatment of selected Goligher grade III hemorrhoids.*
- 78 **S. Tornese** *Incidental neuroendocrine tumor excision during stapled haemorrhoidopexy.*

8° CONGRESSO NAZIONALE
Società Italiana di Chirurgia Colorettale

BIELLA, 11-13 NOVEMBRE 2019

- 79 **A. Iroatulam** *Extra-mucosal ligation and extraction of fistulous tract*
- 80 **L. Brusciano** *Postoperative discomfort and pain for the hemorrhoids' surgical treatment: Laser Hemorrhoidoplasty, a minimal invasive and painless procedure*
- 81 **G. Giarratano** *Comparison of ADM plug versus LIFT versus VAAFT for the treatment of fistula-in-ano*
- 82 **A. Sturiale** *How much the preoperative antiplatelet and/or anticoagulant therapy increases the post-operative proctological bleeding rate*
- 83 **P. Campenni** *Combined procedure for severe haemorrhoidal disease: an alternative surgical strategy*
- 84 **N. Foti** *The minimally invasive treatment of pilonidal disease with E.P.Si.T.: a retrospective analysis of long-term results in a single center*
- 85 **P. Campenni'** *Re-do THD Doppler in recurrent hemorrhoidal disease*
- 86 **C. Tanda** *Autologous Micro-fragmented Adipose Tissue (LIPOGEMS): the role of Mesenchymal Stem Cells for the treatment of recurrent perianal fistulas.*
- 87 **F. Marino** *Selective embolization of the superior rectal artery ("emborrhoid" technique) for the treatment of bleeding hemorrhoids*
- 88 **A. Salzano** *The use of fistula plug in the treatment of recto-vaginal fistulas*
- 89 **I. Giani** *Modified endorectal proctopexy (ERPP) for circumferential recto-anal polyp: a case report.*
- 90 **C. Tanda** *Autologous Micro-fragmented Adipose Tissue (LIPOGEMS): the role of Mesenchymal Stem Cells for the treatment of female genital Lichen.*
- 91 **D. Passannanti** *Low cost procto trainer*
- 92 **A. Parello** *New technologies in hemorrhoidectomy: short term results between two different vessel-sealing devices*

8° CONGRESSO NAZIONALE
Società Italiana di Chirurgia Colorettale

BIELLA, 11-13 NOVEMBRE 2019

- 93 **C. Magnani** *Transanal hemorrhoidal dearterialization (THD) procedure for hemorrhoidal disease: analysis of 250 consecutive patients*
- 94 **A. Bergantino** *MIINVASIVE TREATMENT OF PILONIDAL DISEASE WITH "PIT PICKING" TECHNIQUE AND LASER APPLICATION (filac)*
- 95 **C. Elbetti** *The "Single Pile Hemorrhoid Classification": a new tool for the classification of hemorrhoidal disease and the comparison of treatment results.*
- 96 **I. Giani** *Tuscan Consensus on the diagnosis and treatment of Hidradenitis Suppurativa: the role of surgery.*
- 97 **R. Tutino** *"Autologous Adipose-Derived Stem Cells and Platelet Concentrates (PC) for the treatment of Complex Perianal Fistulas"*
- 98 **S. Santillo** *Traumatic rectal avulsion: case report*
